A much colder and wet day at Greensands and the first visit for a number of us. It fished OKish and there were plenty of fish moving about but getting them to take a hook bait was another matter.

It was tight between the top 3 and the next 3. Stan was top fishing expander on what the regulars said was one of the best pegs. A couple of fish behind was Simon who was just 6 ounces ahead of Roger.

The water levels were well down which probably explained why the fish didn't seem to settle in the margins.
