The rain started early but didn't last and once the clouds moved off we had a lovely day with a breeze and a nice bit of sun. The fishing was equally good despite the carp not really getting their heads down but a super close match. Riverside is certainly becoming a venue where a range of approaches will get you fish. Roger took top spot from 22 with a mainly carp weight and Allan on peg 30 fished caster shallow for mainly roach with some good quality samples in his 24lb 10oz silvers net. Just ten ounces split first and second and Steve was right behind just a pound and an ounce behind Allan. Chris Stride found bream liking corn in peg 25 with most of his 27lb 10oz net being nice bream.

Overall the venue is fishing very well indeed and is a credit to the fishery manager and those who support him
