This was definitely the worst match at Riverside since the snow last December. Well done to Bob Scott with a convincing win from the far bank of peg 2.

Someway behind was Dave Aris who had all silvers from 34 to win the silvers pot as well. Martin Boddy also only had silvers for his 3<sup>rd</sup> place.

So why did it fished so badly? Well it turned out that the much of the venue had been treated with lime the day before which helps created a rich a fertile environment once it warms up plus it reduces accumulated silt. But the fish were put off by it and only the pegs which had missed the lime produced any kind of weight.

Next it's back to Frogmore on Wednesday January 2<sup>nd</sup>. Happy New Year
