We had 9 for the midweek and were using other pegs with people spread out to get a feel for the rest of the fishery. With only 2 other anglers on the lake all day it was pretty much the place to ourselves as normal.

Whilst it was cooler than previous weeks the fishing was slower but still pretty good with a real mix of fish showing from around the fishery. Less carp and crucians showed compared to previous weeks though.

Simon Jee took to top spot from peg 7 with some good quality fish. Allan in second had mainly roach and perch with a couple of bonus small carp and Chris Stride has all silvers including 2 rare ruffe !

Overall much better than expected so fingers crossed the forecast sharp dips in temps is wrong and we are spared a rock hard Xmas match.
