A switch of venue with us not being able to access Frogmore due to the ongoing delays with the fishery keepnets saw us at Southend Farm on Damsel lake, one of the smaller lakes.

The lake has a very good head of skimmers and some good sized carp and despite the drop in temps there were still good numbers of skimmers showing for most but Simon managed to find some good number of carp in the last 90 minutes to corn to take a comfortable win. Allan had around 20lb of skimmers caught short on maggot with some carp mainly on paste. Barry Cowley managed to catch a number of carp shallow to finish just ahead of Alan Thomas who had a cracking carp of 14lb 12oz

Feedback was very good so we will probably come back in 2 weeks time.
