Our first visit to this picturesque fishery hidden away not far from the famous Santa Pod.

Not only were we treated to some full power acrobatics from a Spitfire but also some good fishing. There was a great variety of fish with all manner of carp from common, ghosties and a range of koi and also fantails, gibel carp and goldfish. There were some good roach caught to along with bream, golden orfe and barbell.

Alan used paste close in to pick up decent carp. Simon fished hard pellet and I had most of my fish up in the water.

Overall a very nice venue with some great fishing. Shame it is a bit of a journey or I could see us making this a regular venue.
